neighborhood
project earn
funding!

BRENTWOOD PROJECT

Brentwood Park Outdoor Gathering Space

This project would create a simple outdoor seating and gathering area in Brentwood Park, giving youth, families, and residents a more comfortable place to rest, connect, and spend time together outside. By adding tables or seating, the project would help activate the park as a space for everyday use, conversation, and community life.

Key elements include:

- **park activation through outdoor seating**, creating a more usable and welcoming space for neighborhood residents
- support for **face-to-face connection**, offering a place for families, friends, and neighbors to gather outdoors
- **everyday access to green space**, making it easier for people to spend more time outside in a familiar neighborhood setting
